EXAMINER'S COMMENT

1. An Applicant's Amendment filed on May 22, 2006 has been entered. Claim 32 has been canceled; claim 33 has been amended; and claim 38 has been added. Overall, claims 1-5, 9-16, 19, 20, 23-27, 30, 31, and 33-38 are pending in this application.

Allowable Subject Matter

2. The following is an examiner's statement of reasons for allowance:

As indicated on page 10 of Applicant's Amendment, applicant argues that the limitation "screen affixed to the intake pipe by interference fit" is a structural limitation and not a process limitation; and therefore, the claim should not be rejected under product-by-process rule. The argument is deemed persuasive after further consideration and consultation.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Prior Art

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure and consists of two patents and one patent application: Doman et al. (U.S. Patent 3,768,440), Koehler (U.S. Patent 4,200,218), and Richard et al. (U.S. Patent Application 2005/0086807) further disclose a state of the art.
